Ex. 6 Personal Privacy (PP) will develop the briefing paper today and will take the case to Options on Tuesday. It looks like we can do a grant w/condition (PPE), but we'll know with more certainty on Tuesday after the team goes over everything. Would you like me to respond to the **Ex. 6 Personal Privacy (PP)** email chain with this info, or would you like to?

Thanks, **Ex. 6 Personal Privacy (PP)**

Yep, she just responded to my invite with a note and accepted my 10:30 invite. She wrote that she'll draft the briefing paper today, so that's good! I'm still meeting with her at 10:30 to better understand the steps after that. Let me know if you want me to add you to the invite. Otherwise, I'll just send you a summary of what we talked about.

Hi **Ex. 6 Personal Privacy (PP)** – It looks like this is your case. See the email chain below. Could you please take a look at what RAB completed yesterday (it should be in NCR now or soon) and respond here with what you think the next steps are?

Let me know if you have any questions or want to talk. Thanks! **Ex. 6 Personal Privacy (PP)**

In December of 2019, Sigma-Aldrich submitted L-20-0065. Sigma-Aldrich went through multiple rounds of amendments in response to comments from the engineer and the engineering and exposure reports were updated in June/July. The case has been sitting with the health assessor since August. We have not

had a meaningful status update since then. Sigma-Aldrich understands that the risk assessment teams are now in the New Chemicals Division (formerly the Chemical Control Division) as a result of the reorganization that occurred at the end of FY2020.

If the assessors need additional information, Sigma-Aldrich requests that we convene an additional teleconference to discuss the issues.

Although time is short to do so, Sigma-Aldrich is hoping to resolve this case around the anniversary of its submission date, December 18.
